STATOM GROUP GROUNDWORKS

WE ARE providing flexible, economic solutions to complex construction situations due to our robust equipment and competent staff. Our extensive experience in groundworks combined with our highly skilled operatives means that we can undertake all types of groundworks. We provide competitive and innovative solutions for projects of all sizes, supported by early engagement and experienced delivery teams. Your project can benefit from our considerable experience of groundworks and civil engineering.

Statom Plant division manages anything from an excavator to small tools. Always going through a vetting process ensuring it meets all standards.

All our excavators are fitted with the latest 360 cameras allowing the operator full visibility. This enables our operators to maintain the high standard of safety The Statom Group expects from all workers.

Statom excavators are fitted with full fall protection cages and access rails and our rolling programme ensures that all major items of plant are less than three years old and therefore we ensure that all plant is compliant with safety legislations.

The background image shows a large-scale construction or demolition site in an urban environment. In the foreground, there are several pieces of heavy machinery, including orange excavators and a blue tracked loader, working on a pile of rubble and earth. A red and white train is visible on a track to the right. In the background, there are modern high-rise buildings, some under construction with cranes, and a multi-level highway or bridge structure. The sky is blue with some clouds.

O'CONNELL CONTRACTING

O'Connell Contracting is a provider of large-scale demolition, groundworks and civil engineering services. Based in North London, O'Connell Contracting is a multi-disciplined contracting group delivering projects across public and private sectors.

Your accredited partner delivering Demolition, Groundworks and Civil Engineering services

Sustainability About us

The range and scope of our past projects is wide and varied across the public & private sectors.

Projects

Demolition. Groundworks. Civils.

Lewin Road, Poplar

The Former Bus Depot on Lewin Road was a 15,000m² structure bounded by the River Lea and the busy residential area of Lewin Road.

View project

Ashlin Quarter, Aylesford Village

The Ashlin Quarter redevelopment project entails the comprehensive revitalisation of a 12-acre floodplain site within Aylesford Village.

View project

East Surrey Hospital, Redhill

O'Connell Contracting were approached in December 2022 by Surrey & Sussex Healthcare NHS Trust to construct a 28,000m² emergency car park.

View project

Groundworks

O'Connell Contracting prefers to act as Principal Contractor whenever possible for demolition, civil engineering and building projects. As an experienced building contractor, we have a strong supply chain of sub-contractors and an experienced management team on hand to deliver your project.

Single point of contact.

Being the main contractor means that O'Connell Contracting serve as the primary point of contact for you, the client. We act as the liaison between yourselves and the various parties involved in the project, which results in streamlining communication, addressing concerns promptly and efficiently, and providing real time regular project updates.

Services included.

Contact us

Project management.

As the main contractor, we bring valuable project management expertise to the table. We oversee scheduling, resource allocation, and quality control to ensure that the project is completed within the specified timelines, budget, and to the client's satisfaction.

Risk management.

Being the main contractor involves assuming responsibility for managing and mitigating project risks. We identify potential challenges, develop contingency plans, and implement safety measures to ensure a safe working environment for all involved parties.

Quality assurance.

As the main contractor, we are accountable for the overall quality of the project. We implement quality assurance processes, conduct inspections, and ensure that the work of subcontractors and suppliers meets industry standards and the client's expectations.

Groundworks projects.

Ashlin Quarter, Aylesford Village

The Ashlin Quarter redevelopment project entails the comprehensive revitalisation of a 12-acre floodplain site within Aylesford Village.

View project

Long Acre, Shorne

Demolition of an existing building and the construction of a basement and two storey concrete frame for a new dwelling house. Works included the construction of a piling mat, installation of sheet piles and a reduced level dig to form the basement box. All steel fixing, shuttering and concrete work were carried out by our in-house operatives. Works were completed within a 16-week programme.

View project

South London Groundworks

The project encompassed extensive groundwork, drainage, and utility infrastructure development for a 'last mile' distribution hub in South London. This included site preparation, installation of advanced drainage systems, and the integration of essential utilities to support the operational efficiency of the hub.

A Thriving Example of a Modern Community

The Hamptons are a series of 'villages' south of Peterborough, Cambridgeshire, that pride themselves on rich community life, first-class amenities, and wide-open spaces for recreation.

Hampton is home to two secondary schools and five primary schools, including Hampton Hargate Primary School, which has been rated by Ofsted as 'outstanding'.

It is generously surrounded by beautiful scenery, including numerous lakes, picturesque nature walks, expansive parks, restaurants and shops for the whole family to enjoy, yet it is still within a stone's throw of the city. With easy travel links to London and beyond, Hampton Township is waiting to welcome you and your family to enjoy it for many years to come.

Approximately 30 minute drive from Hampton Centre to Peterborough Train Station.

COME AND ENJOY THE HAMPTON VILLAGES

Hampton Hargate was one the first of the villages to be delivered in Hampton, this location was well received and widely celebrated for the open, natural and community spaces. A few years later the village of Hampton Vale began to see its first residents, modern, fun, and full of character Hampton Vale offers stunning environmental and a real community feel. As the success of Hampton grew, so did the requirement for more homes and schools and this thriving township now boasts six villages in total including Hampton Centre, Hampton Heights, Hampton Gardens, Hampton Water, Hampton Wood and Hampton Beach. All of the villages in Hampton offer their own unique charm and offer a great location for people to live and enjoy.

Click on the links below to find out more about each village.

The logo consists of the letters 'CLS' in a bold, black, sans-serif font. The 'C' is a simple, rounded shape. The 'L' and 'S' are more complex, with the 'L' having a small gap at the top and the 'S' having a small gap at the bottom. The logo is centered within a white square that has rounded corners and is set against a dark background of a modern office interior.

LE SIGMA LA GARENNE-COLOMBES PARIS, BUREAUX IDÉALEMENT SITUÉS

DISPONIBLES À LA LOCATION DES 300 M² À 1 200 M² DISPONIBLE

Conçu pour le confort de ses occupants

Le Sigma, un immeuble contemporain de six étages offre des espaces de bureaux haut de gamme à La Garenne-Colombes.

Conçu pour allier fonctionnalité, confort et esthétique, cet immeuble garantit un excellent rapport qualité-prix.

À propos La Garenne-Colombes

Situé au cœur de La Garenne-Colombes, Sigma offre un espace de travail de premier ordre dans une commune souvent surnommée le « petit Neuilly » pour son charme et sa proximité avec Paris. Entouré par Colombes, Bois-Colombes, Courbevoie et Nanterre, l'immeuble bénéficie d'un environnement paisible et pourtant très accessible. Avec deux stations Transilien Paris à proximité : Saint-Lazare, La Garenne-Colombes et Les Vallées, le centre de Paris est à quelques minutes en voiture, faisant de Sigma le point de départ idéal pour les entreprises modernes.

Connexions fluides

Train

T2 - Charlebourg
L - La Garenne Colombes

Le Sigma se trouve à quelques pas de la station Charlebourg sur la ligne de tramway T2, qui offre des liaisons rapides et fiables vers le quartier de La Défense et au-delà. Pour accéder directement au centre de Paris, la ligne Transilien L depuis la station La Garenne-Colombes vous relie à Paris Saint-Lazare en moins de 15 minutes. Que ce soit en tramway ou en train, se rendre au Sigma est simple, efficace et bien desservi.

why anthony martin?

We are Kent's favourite estate agent serving our communities with their sales, lettings and property management requirements from our nine offices.

Founded in 2011, today we are a multi-award-winning estate and letting agents with offices in Barnhurst, Beley, Bexleyheath, Dartford, Lockdown, Maysfield, New Ash Green, Sutton at Home and Swancombe.

With an enviable reputation for delivering the highest quality customer service, here at Anthony Martin we look after our clients every step of the way when it comes to finding and securing your perfect home or investment.

We are also incredibly proud to have several awards under our belt for our service when it comes to lettings and property management.

get your instant valuation now

The team were really helpful during what was a tricky, lengthy and stressful purchase experience. They did all they could to ensure the chain could complete as quickly as possible and were clear in their communications at all times. We're really glad our house went and couldn't be happier.

[OUR SERVICES](#)[ABOUT US](#)[INSIGHTS](#)[CONTACT US](#)

DARA Planning is an independent London-based planning consultancy specialising in guiding clients through the planning and development process, from inception to delivery. DARA prides itself on being a truly commercially-minded consultancy, ensuring that our clients' objectives are at the forefront of every decision throughout the project's lifecycle. Our tailored approach provides a full suite of planning and development services to meet our clients' needs. We are a forward-thinking company dedicated to creating sustainable strategies that optimise development potential across London.

[OUR SERVICES](#)[ABOUT US](#)[INSIGHTS](#)[CONTACT US](#)

OUR SERVICES

We provide a full suite of services for your planning project, from inception to delivery. DARA Planning is your solution for client-focused, commercially-minded planning services. Our team can help you throughout the whole planning process, from strategic land promotion to planning applications and appeals, all the way through to the discharge of conditions. Together, we can build a better tomorrow.

ABOUT DARA PLANNING

At DARA, we thrive on solving complex planning and development challenges across London. With a future-focused approach, we aim to achieve our clients' aspirations by creating sustainable urban planning and regeneration solutions. We pride ourselves on being a truly commercially-minded London planning consultancy, ensuring our clients' objectives are at the forefront of every decision.

DARA has built an outstanding reputation as a leading London planning and development consultancy. Committed to always delivering a first-class service, DARA Planning's core expertise includes preparing planning applications, offering strategic advice, master planning, and navigating planning amendments across London.

 Data as at 10 February 2020

Invest Now →

Why invest in WS Blue Whale Growth Fund?

The WS Blue Whale Growth Fund is a concentrated, long-only global equity fund holding 25-35 stocks, with a focus on large cap companies in developed markets. The Fund is authorized as a UK UCITS by the Financial Conduct Authority. Since its launch in September 2017, the Fund has returned over 250% to date (I Class Acc shares for period 11/09/2017 to 10/02/2020). Please note that past performance is not a guide to future performance.

Investment Objective

The Investment Objective of the Fund is to achieve capital growth over any five year period, after all costs and charges have been taken.

Investment Strategy

In selecting investments for the portfolio, the Investment Manager identifies companies which, based on its analysis, meet the following criteria:

- have the ability to grow and improve profitability over the long term;
- have a current valuation that is attractive relative to their future growth and profitability.

The Investment Manager selects companies from a broad range of geographies and sectors with no particular sector or style bias.

To Date	2018	2014	2013	2012	2011	2010	2009	2008	Since Launch	Annualised
Blue Whale*	+8.7%	+28.4%	+28.2%	+22.7%	+27.8%	+22.8%	+26.4%	+27.8%	+8.4%	+28.2%
UK Stocks†	+1.7%	+11.2%	+12.6%	+12.7%	+1.7%	+12.2%	+16.2%	+22.7%	-8.2%	+18.2%
Outperformance	+7.0%	+17.2%	+15.6%	+10.0%	+26.1%	+10.6%	+10.2%	+5.1%	+16.6%	+10.0%

Past performance is not a guide to future performance. Your capital is at risk and the value of your investment may fall as well as rise. You could get back less than you invested.

* WS Blue Whale Growth Fund class for shares, serial investment or sales of new shares (Monthly).

Committed to Maximising Your Investment

The Blue Whale Approach is rooted in 5 core values which underpin every decision we make.

High Performance

World's Best

Research Led

High Conviction

High Quality

Committed to outperformance

At Blue Whale, we believe that successful active management is defined by consistent outperformance of the market. This means achieving greater returns during rising markets and preserving capital during downturns.

We always present our performance relative to our comparator benchmark. Our sole focus as active managers is to exceed this benchmark, delivering tangible value for our investors.

Discover the rewards and risks of investing in equities

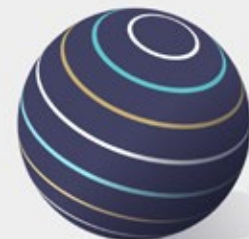

Fund Factsheet →

The best the world has to offer

Our global investment strategy allows us to uncover opportunities in every corner of the world, free from geographical constraints. By carefully selecting just 25-35 stocks, we focus exclusively on companies that our rigorous research and analysis identify as having the greatest potential for outperformance.

With thousands of stocks to choose from, we prioritise quality over quantity, ensuring our portfolio is built around only the best opportunities available.

NICHOLAS JAMES
MORTGAGE
& FINANCIAL SERVICES

before

**Nicholas
James**
Mortgages + Protection

after

Nicholas James Mortgage & Financial Services Ltd is an advisory firm dedicated to providing independent and whole of market mortgage and protection advice to private individuals, property investors and small businesses.

With over 10 years of experience in the financial services industry, we ensure that our clients are at the heart of everything we do. Our focus is on understanding your individual needs through careful factfinding, before tailoring our recommendations to suit your unique priorities and budget.

In addition, our established relationships with other industry leading professionals allow Nicholas James the additional flexibility to support our clients with their commercial funding and estate planning needs.

At Nicholas James Mortgages, we ensure that our advisers and support team are experienced, proactive and accessible to you guaranteeing that from an initial enquiry through to completion the client journey is effortless.

We are flexible on appointment days and times to work around your schedule. We also guarantee a mortgage appointment within 48 hours of enquiry (note that this will be via zoom or telephone).

If a mortgage is secured against your home or property, it could be repossessed if you do not keep up the mortgage repayments.

The Financial Conduct Authority does not regulate will writing, taxation, trust advice and commercial lending.

Our advisers provide advice across a wide range of services including:

Individual Protection

Whether you are a renter, homeowner or investor the team at Nicholas James are here to make sure that in the event of illness, injury or death you, your home and your family won't be at risk.

Death

Every 3 minutes one person dies from heart or circulatory diseases

British Heart Foundation

Benjamin Franklin said that 'nothing is certain except death and taxes' and while death may be certain it is rarely opportune. By ensuring that our client's family receives a cash lump sum on their death we ensure that they can grieve without the added worry of how their bills will be paid.

Serious illness

1 in 2 people will develop cancer within their lifetime

Cancer Research UK

By its very definition, a serious illness can have a serious impact on the physical, emotional and financial security of our clients. By ensuring that our client receives a cash lump sum on diagnosis of a specified critical illness we ensure that they will have the freedom to manage their recovery without the added worry of how their bills will be paid.

Testimonials

The professionalism and straight-forward approach from Nicholas James made the whole process of re-mortgaging very clear and stress-free for me. I felt reassured and confident that they understood my situation and the best possible package has been obtained for me. They kept me updated throughout the process and were happy to re-explain something if I didn't understand (which is very important!) and managed my expectations within a tight time-frame. I will definitely use Nicholas James again in the future and have recommended them

Fenchurch Insurance Brokers turned to Why Media in 2024 for a full service of support. Fenchurch Insurance Brokers lead the way for the construction sector, they pride themselves on offering a traditional and personalised approach.

- Appendix 2: DSO Plan for distribution	60
- Appendix 3: DSO Plan for transmission and distribution contracts	61
- Appendix 4: Existing customer action details	62

Our action plan for fair and faster connections

- ### 1 Strengthen and tighten the application process

Some customers submit speculative applications due to a lack of information and a perception that having a connection offer is in itself valuable. This has driven exponential growth in application volumes (nearly tripling since 2018) – though it is recognised that the majority of these will not go on to become viable projects. To address this, network operators will take steps to make the application process more discerning – providing more information to the market, requesting more data from applicants, and standardising pre-application engagement. These actions will contribute towards ensuring fewer but higher quality projects apply, addressing today's rapid queue growth, and lowering attrition within the queue.

new action
- ### 2 Release up to 90GW of capacity by cleaning up the queue and actively managing a "first-ready, first-connected" process

To address the challenge that many projects with a connection offer will not ultimately be completed by the customer (up to 60% attrition rate at transmission level), and that customers are not ready to connect in the order that they apply, network operators are clearing up the queue and transitioning to a first-ready, first-connected process. This will release up to 90GW of capacity through customer exits and accelerate remaining applications.

commenced early 2023
- ### 3 Accelerate up to 70GW of applications by allowing some applicants to connect faster, before network reinforcements are completed

Historically, customers could not be connected until network reinforcements had been completed, which led to later connection dates. In some cases – 31% (167GW) have connection dates more than 10 years away. To accelerate connections of up to 70GW of applications, network operators are providing flexible contracts for generation and storage customers through solutions at distribution and transmission level. These will allow customers to receive earlier connection dates and connect ahead of enabling works, though they may be instructed to reduce their output/consumption when needed.

139GW the estimated additional network capacity which will be released as a result of our plan

commenced early 2023
